Adad Medni, South Pillar

Morocco, Anti-Atlas

On December 4, Dominique Lalot and Raphael Thomé (France) completed the upper South Pillar of Adad Medni in the western Anti-Atlas. This line, which begins partway up the 1,000m south face and is accessed by a traverse from the east, had been attempted in 2019 to within about 100m of the summit (see [AAJ 2023](#)). The completed route was nine pitches (300m) and 5+/6a.

— Information from Bernard Amy, France
